

CURSOS PRÉ- CONGRESSO

**CERTIFICAÇÃO ORDEM DOS
ENFERMEIROS**

>> **Curso Acessos Vasculares Ecoguiados /
PICC**

>> **Curso Ventilação para Enfermeiros**

>> **Curso Transporte Doente Crítico**

>> **Curso Técnicas Contínuas de Substituição
da Função Renal**

>> **Curso Fundamental Critical Care Support
(FCCS)**

>> **Curso Beyond Basic Ventilation**
Curso Avançado De Ventilação Mecânica Invasiva

>> **Curso Via Aérea Difícil**

>> **Curso Extracorporeal Organ Support
(ECOS)**

>> **Curso Cuidados Paliativos em Medicina
Intensiva**

>> **Curso Broncofibroscopia**
ATCIC (Advanced Training Course In Intensive Care)

>> **Ecocardiografia Avançada em Medicina
Intensiva**

>> **Curso Analgesia Sedação e Delirium**

THURSDAY 2nd MAY

08:30 Sci Reesearch: Posters & Turbo-Talks		
09:00	Haemodynamics - First hours of resuscitation	Luis Bento Miguel Tavares
	Resuscitation targets: which one is the best?	Jean Louis Teboul
09:15	Measuring cardiac output: still useful?	Suzana Lobo
09:30	Can ultrasonography help?	Ciro Mendes
10:00	Challenges in Mechanical Ventilation	Antero Fernandes Cristiano Franke
	The impact of asynchrony	Philip Fortuna
10:15	Self-inflicted lung injury	João Gouveia
10:30	PEEP on VILI prevention - Why zero impact on survival?	Jesus Vilar
11:00 COFFEE-BREAK		
11:30	Symposium MSD - Challenges in the Treatment of Serious Gram-negative Infections – where are we now and what’s on the horizon?	TBC
	Where are we now? What’s on the horizon?	Filipe Froes Ignacio M-Loeches
12:00	Blast Session - I don't care about fluid responsiveness!!	TBC
	JL Teboul, Ederlon Rezende, Miguel Tavares, Suzana Lobo, Felipe Gonzalez	
12:30 LUNCH BREAK		
14:00	Challenges in Haemodynamics	Ederlon Rezende Igor Milet
	When are we going to start looking at microcirculation at the bedside?	Jean Louis Teboul
14:15	Haemodynamic monitoring during ECMO	TBC
14:30	Is there a role for non-invasive haemodynamic monitoring in the critically ill?	Miguel Tavares
15:00	Conference - Next Steps in Intensive Care Medicine	Flávia Machado João Gouveia
	Suzana Lobo	
15:30	Sepsis	Ricard Ferrer José Artur Paiva
	How to optimize antimicrobial therapy?	Marcelo Maia
16:00	The 1 hour bundle: pros & cons	Flávia Machado
16:15	Vitamine C? Is there an answer for this question?	Ignacio M-Loeches
16:30 COFFEE-BREAK		
17:00	Colloquium: How to Achieve a High Performance ICU?	Júlio Nóbrega Ciro Mendes
	Ricard Ferrer, Ederlon Rezende, Rui Moreno, Rui Araújo, António Marques, José Artur Paiva	
17:30	PRO-CON 6mL/kg for all	Philip Fortuna Marcelo Maia
	PRO Jesus Villar; CON Antero Fernandes	
18:00	Year in Review in Intensive Care - My 10 papers	Jesus Vilar João Gouveia
	Miguel Tavares	

FRIDAY 3rd MAY

08:30 Sci Reesearch: Posters & Turbo-Talks		
09:00	Sepsis	Marcelo Maia Paulo Mergulhão
	How to deal with multirresistance?	Ricard Ferrer
09:15	Do we know what's the best fluid?	Flávia Machado
09:30	Early vasopressor support: is there a place for it?	Ederlon Resende
10:00	Organ Donation	Ricardo Matos João Paulo A. Sousa
	Mantaining a potential organ donor: what’s new?	Cristiano Franke
10:15	Organ donation after circulatory arrest: what can we learn with the Canadian experience?	Kwadwo Kyeremanteng
10:30	Cerebral death: The CDE role	Bruno Maia
11:00 COFFEE-BREAK		
11:30	Conference: Prognosis Enrichment strategy for selection ARDS patients in clinical trials	Flávia Machado Rui Gomes
	Jesus Vilar	
12:00	Simposium Baxter - Inovation in CRRT and Sepsis Management	TBC
	Max Bell	
12:30 LUNCH BREAK		
14:00	Neurocritical Care	Paulo Maia Cristiano Franke
	Haemodynamics pitfalls on PtiO2 monitoring	Jorge Paranhos
14:15	Targeted temperature management role on neuroprotection	TBC
14:30	Neuromonitoring the septic patient: How to do it and why?	Igor Milet
15:00	Challenges in critical care nutrition	Sofia Escórcio Paulo Martins
	Demystifying parenteric nutrition in the critically ill	TBC
15:15	New evidences on Omega 3 supplementation	TBC
15:45	The Surgical Patient	A. Pais Martins Ciro Mendes
	How are we in Brazil?	Suzana Lobo
16:00	Optimizing per-operative haemodinamics: for whom and how?	Hugo Vilela
16:15	How to prevent pulmonary complications?	Fernando Abelha
16:45 COFFEE-BREAK		
17:00	A Clinical Case – Acute Hepatic Failure	Luís Bagulho
	TBC	
17:30	Palliative Care in Intensive Care Medicine	Isabel Galriça Neto
	Futility and Appropriateness	Robin Taylor
17:45	Life support therapies in ICU: balancing benefits and burdens	Nazir Lone
18:00	Critical Care at end of life, costs and outcomes, impact on decisions	Kwadwo Kyeremanteng

SATURDAY 4th May

08:30 Sci Reesearch: Posters & Turbo-Talks		
09:00	Clinical Management	Francisco Esteves Rui Araújo
	Choosing wisely: why joining it?	Cristiano Franke
09:15	Protocolized Intensive Care Medicine: refuge or demand?	JJ Nóbrega
09:30	Quality performance indicators: can they help us?	Ciro Mendes
	AKI in the ICU	Andrea Salgueiro João J. Mendes
10:00	Year in review	Sérgio Gaião
	KDIGO bundles	TBC
10:30	Witch benchmarks for CRRT monitoring?	Armando Ramos
11:00 COFFEE-BREAK		
11:30	Colloquium - How to Choose The Ideal PEEP?	Irene Aragão Teresa Honrado
	Jesus Villar, Philip Fortuna, Rui Gomes, Antero Fernandes	
12:00	Conference - UCI Humanization	Piedade Amaro TBC
	Gabriel Heras la Calle	
12:30	Other Issues We Need To Talk...	Paula Coutinho Suzana Lobo
	Systematized approach on severe pelvic trauma	Igor Milet
12:45	When we have an autoimmune critical patient in the ICU...	Francisco Esteves
13:00	Ten reasons to follow-up post-critical patients	Ernestina Gomes
13:30 CLOSING CEREMONY		
14.30	Palliative Care in Intensive Care Medicine Course (Part 2)	SPCI Palliative Care Group
